Re: RoHS & WEEE Directives Compliance Statement for OPTISHIELD® Products

To Our Valued Customers:

In response to growing environmental concerns, the European Union has developed and enacted two directives in an effort to reduce environmental contamination.

The first directive, "Waste Electrical and Electronic Equipment" (WEEE) was developed to reduce the amount of electrical and electronic equipment entering landfills at the end of products useful life by encouraging reuse, recycling and separate collections.

The second directive, the "Restriction of the Use of the Certain Hazardous Substances" in Electrical and Electronic Equipment (RoHS) places restrictions on the use of certain hazardous materials which include Lead, Mercury, Hexavalent Chromium, PBB, PBDE, and Cadmium. The directive is expected to become effective on July 1, 2006.

The OPTISHIELD® family of corrosion inhibitors are chemical mixtures formulated to prevent corrosion from occurring in re-circulating cooling systems. OPTISHIELD® products do not contain the hazardous substances covered under the scope of the directive nor are they used in the manufacture of OPTISHIELD®. Therefore the **OPTISHIELD® family of Corrosion Inhibitors are deemed exempt from the RoHS directive.**

Part numbers covered by this statement of compliance:

400101, 400102, 400103, 400104, 400105, 400106, 400107, 400108, 400109, 400110, 400111, 400112, 400113, 400114, 400115, 400116, 400117, 400118, 400119, 400122, 400123, 400124, 400125, 400126

The above initiatives continue to be clarified by the EU legislature. We will continue to monitor the latest WEEE and RoHS developments and continue to support our customers in their compliance efforts. Periodic updates on our compliance program will be posted in the "Company Information" section of our website. For more information regarding the above directives visit www.rohsdirective.com or www.pb-free.info/directive.htm.

Please be assured that OPTI TEMP Inc. is dedicated to minimizing the impact our products have on the environment. If you have any questions about OPTI TEMP's WEEE/RoHS policy, please contact our sales department.

Sincerely,

Dan Dorn
Vice President, Engineering
